**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-24 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claims 1, 8-11, and 18, 'ones of the' is not clear and confusing. Claim 6, line 4, is redundant, the claim makes clear the dimples are defined by the edge elements in line 2. Claims 9 and 11, no antecedent basis for 'rectilinear edge'. Claim 12, 'circulatory' is not clear.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 18-23 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Ogg (6,290,615). Regarding claim 18, Ogg discloses a golf ball comprising dimples formed with a plurality of tubular projections (app's edges). The dimples as viewed from above are non-circular. The bottom of the dimple/recess inherently has a convex (arc) surface. Regarding claim 19, the tubular projections are identical in size and shape.

Art Unit: 3711

Regarding claims 20 and 23, the cross sections of the projections are circular (fig 5).

Regarding claim 21, the cross section of the projection has a radius of from 0.699 to 0.899 inch (col. 6, line 30). Regarding claim 22, the height of the projections is 0.1778 inch (col. 6, line 6).

### ***Response to Arguments***

Applicant's arguments filed 7-29-05 have been fully considered but they are not persuasive. Ogg discloses a golf ball comprising a dimple or recess. The tubular projections create recessed areas equivalent to applicant's dimples.

### ***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
